HUGE EXPLOSIVE PLANT PLANNED FOR COUNTY BY WHITING

Patriotic Move Behind Giant Powder Mill at El Toro Ranch

WILL MAKE NO PROFIT ON NEW UNDERTAKING

To Manufacture Two Kinds of Powder and New Patent Shell

One of the largest explosive plants in the United States may be built at El Toro in this county, if present plans now under consideration are carried out. This plant is being built to provide against the disastrous shortage that would result if any of the powder factories of the Atlantic coast were destroyed.

Dwight Whiting, well-known rancher and business man of this county, is the man backing the proposition. In a statement to the Register this morning over the long distance telephone from Los Angeles Whiting stated that his ranch property at El Toro was the probable site of this new powder factory. While no definite decision has been reached as to the location, Whiting stated that some action would be taken soon, as he was anxious to get the matter under way. The plant will manufacture two kinds of high explosives and a new shell that has just been patented, is associated with Whiting in the enterprise are Warren H. Deane, an efficiency expert, and Attilio Bissiri, an expert on explosives. Bissiri has made a life study of explosives. He will be at the head of the staff of chemists.

Patriotic Motive
The story of Dwight Whiting's sudden plunge into the powder manufacturing business is one of sentiment and patriotism. Whiting specialized on chemistry in college. When he failed to be accepted for the army he determined to use his knowledge patriotically. Hence the powder plant plans made public yesterday.

No Personal Profit
Whiting does not plan to profit by the venture. The use of the land will be given the government free. The product of the plant will be sold at cost, plus 10 per cent. When the 10 per cent profit has been paid for the buildings, which are to be erected at the expense of Whiting, the plant will be turned over to the government. "I do not intend to make any profit with the concern," Whiting said in announcing it. "In the Hudson Maxim book it is particularly pointed out that a sudden attack on the Atlantic coast might deprive the entire country of almost all its powder and munitions concerns at one blow. I am in hopes that by building a powder plant in this part of the country I may inspire others throughout the United States, thus preventing one blow destroying all the munitions."

BOATS DAMAGED \$1,000,000 IN DOCK FIRE

NEW YORK, Aug. 20.—Two steamers and ten smaller vessels docked at the foot of Congress street, Brooklyn, were seriously damaged by fire early today. The damage to the vessels is estimated at upward of \$1,000,000. The fire followed two explosions.

The steamers were loaded with glucose and sugar.

A preliminary investigation by the police led to the conviction that the fire was accidental, being caused by spontaneous combustion.

One of the vessels had a naval gun on board, and men hastily threw the ammunition overboard to avoid more serious explosions.

The blaze started on one of the piers. It spread quickly to the steamers Baron Jedburgh and the Christian Baros, and then to ten tugs and lighters which were nearby. Fire boats aided the land fighters.

CAMP OFFICERS IN COMMAND AUGUST 25

CAMP FREMONT, MENLO PARK, Cal., Aug. 20.—Brigadier generals assigned to commands at Camp Fremont were ordered today to report August 25. Major General Hunter Liggett, who will command the forces to be mobilized here, will assume his duties immediately thereafter. Only one of the four brigadier generals assigned to Camp Fremont, General Henry Harvey, is a graduate of West Point. The others come from the national guard.

POINTS OUT JESUS IS HERO OF DEMOCRACY

Week's Institute, Led By J. Stitt Wilson, Opened With Church Crowded

Study of World Situation Is Begun In Lecture Full of Tense Expression

J. Stitt Wilson came and conquered at a wonderful meeting at the First M. E. Church last evening. Every available seat was occupied and a large number of people were turned away.

A musical program of four selections rendered by the twelve-piece orchestra of the church under the direction of Prof. Francis J. Haynes preceded the speaking. A. B. Gardner, as chairman of the committee which arranged this course of lectures, briefly explained the origin of the movement and the reasons for bringing Mr. Wilson to Santa Ana.

Rev. Harcourt W. Peck, chairman of the evening, then introduced Wilson, who spoke upon the subject, "Jesus, the Hero of World Democracy."

"I am not a preacher," said Wilson. "I do not come to you with any 'isms' and doctrines. I want to find some kind of world unity, the common truth underlying all of them. There will be room for disagreement. What I shall say will not be said in the spirit of controversy. What I say will be offered tentatively. I shall not try to put something over on you."

Ground Principles
"There are a few great fundamental principles of truths or desires of the human heart and of human history and of humanity that stand out in this morning of the twentieth century to command the heart and thought and purpose and will and accomplishment of mankind, and these great principles or concepts shall not be the private property of any particular sect or party or group of 'isms' but shall be as universal as the golden sunshine or the water of the streams or the grass that grows under our feet."

"If there are not some great fundamental truths that are not the private possession of any limited sect or group, then we must prepare for still greater conflict in the future. I come to you with an effort, not a dogma, and I shall try to place the emphasis on some one great concept."

Historical Situation
"Let me say a few words about the historical situation that confronts us. I have no language to characterize the crisis through which the world is now passing. Indeed, I do not know what it is passing through, but something terrible is happening in the world. Literally rivers of human blood are flowing on the earth tonight, and it is not through, and it may be only begun. Something terrible and tragic has happened to the world. Science cannot stop it and business cannot stop it and all the statesmen cannot stop it, and whatever religion has existed in the world cannot stop it."

"It is not theory. It is here. I will not describe it; that would take all night. Millions of men dead, cities and fields devastated, thrones and empires tottering. There has not been any power in the world equal to meeting that situation. This tragedy sweeps off the froth of civilization and gets us down to substance. I simply share with you the feeling of a sobered world looking for truth. We are up against the adamantine terribleness of human experience and we have got to go through it."

Issue Summed Up
"President Wilson has summed up the issue in eight simple words: 'The world must be made safe for democracy.' It is not true because he said it; he said it because it is true. There is one problem that is always before the human race and that is the establishment of democracy on this earth—not on the other side of the moon."

"Jesus, the master democrat, the hero of world democracy! Think with me awhile. Jesus came into a world of slaves. There were sixty million slaves in the Roman empire at that time Caesar sat on his throne. Life was literally cheaper than dirt. Slaves sold for 80 cents apiece. We can't conceive what that means. For the slightest offense the master could kill the slave."

"All over the empire were crosses on which the slaves could be crucified at any time. The Roman law had no more concern with slaves than the city of Santa Ana had with dogs. There was an absolute disregard of the sacredness of human life. It is impossible to get the significance of Jesus until you get the color and the contrast of this state of things in the Roman empire. Little children were fed to wild beasts, the sick left to die. Even the glory that was Greece was silent concerning the wrong of slavery. Even the great Aristotle found no place in his brain for a conception of human society without slaves."

A New Starting Point
"And into that world came the character of Jesus of Nazareth. He put his foot down on human history, and somehow humanity got a new date. Something happened when Jesus came into the world. He linked himself, not with Caesar, but with the helpless, God-forsaken character that was under Caesar's heel, linked himself with the slave."

"He did not put himself under the top-story. He put himself under the bottom-story."

HAMMER BLOWS RECORDED
"Something terrible has happened in this world. We are up against the adamantine terribleness of human experience, and we have got to go through with it."
"Jesus, the master democrat, the hero of world democracy!"
"The world will never be beautiful until the people come into their own."
"The rock-bottom principle is to recognize the sacredness of the lowest human being—democracy."
"President Wilson summed up the issue in eight simple words: 'The world must be made safe for democracy.'"

HOOVER WARNS WORLD FACES MEAT FAMINE

BY GEORGE MARTIN
(United Press Staff Correspondent)
WASHINGTON, Aug. 20.—Herbert Hoover today warned America that the world faces a meat famine. And a high range of prices for meat and animal products for many years to come confronts this country. He cited figures to prove that the nation's cattle, sheep and hogs are dwindling rapidly under the demands of war and in allied Europe threaten to be wiped out entirely. Fabulously high prices in Europe and America will extend to lard, butter, cheese, leather, fats, oils and wools.

He advocated government control of this country's meat exports. He called upon America's livestock breeders to at once lay plans for enormously increased herds and flocks. He pleaded that all rich, well-to-do middle class, and other non-manual laborers in the United States gradually reduce their meat consumption and leave more for the fighting men and male and female war workers of allied lands.

Cautions Allies
He cautioned the allies that "large amounts of meat from northern neutrals are being diverted to Germany," and offered this as an added reason for regulation of American exports. As a meat conservation measure for America in this crisis, he suggested that our comparatively little utilized fish supply be thoroughly harvested, well marketed and more generally eaten.

Since the war began this country's cattle production has increased 7,000,000 as compared with a decrease of 8,420,000 among our western allies and a decrease elsewhere in the world, including enemy countries of 26,750,000, a total world decrease of 28,080,000 head.

Sheep production decreased 3,000,000, the western allies, 17,500,000; other countries 34,000,000, a total world decrease of 54,500,000.

Hogs Increase
While this country's production of hogs has increased 6,275,000 head, that of our western allies decreased 7,100,000 head, that of other countries 31,600,000, a total world decrease of 32,425,000.

"While our hogs have increased by 3,000,000 animals," said Hoover, "the average weight at slaughter is falling and our production is probably about maintained."

"The demands made by the war on America's meat supply are shown in the growth of our meat exports from an average of 493,848,000 pounds a year for three years before the war, to 1,339,193,000 pounds for the single year ending June 30, 1916."

"There is only one immediate solution to the short supply. We can, with meat, just as with cereals, reduce consumption among those classes who can best afford it, and eliminate waste."

"Meat, to protect all our people, we must carefully control our meat exports."

AMERICANS WOUNDED IN FIELD SERVICE

PARIS, Aug. 20.—Earl Osborn of Garrison-on-the-Hudson, N. Y., Dominick Rich of New York city and W. Pearl of St. Johns, Mich., all members of the American ambulance field service, were brought to Paris wounded today. None are seriously hurt.

STRIKES TRAILER LEFT ON ROAD BOY, AGED 19, IS KILLED

Motorcyclists, Not Seeing Red Light, Hit Rear End, One Dead, One Injured

Dead—Silverton French, aged 19, 601 East Sixth street, Los Angeles.
Injured—Peter Martin, 645 Gladys avenue, Los Angeles, chin cut, right arm broken, slight concussion of the brain.

Yesterday morning about 1 o'clock a motorcycle ridden by Silverton French and Peter Martin, Los Angeles boys, struck the rear end of a trailer loaded with lumber, on the state highway near El Toro. French died as he was being taken to the Santa Ana Hospital.

Stalled on Hill
The trailer belongs to George Reid of 145 Moody avenue, Riverside. He was employed by Blackburn of Bell canyon to haul a lot of house parts, such as doors, casings and lumber, from Los Angeles to El Toro, where Blackburn was to meet Reid with a team and help him on to Bell canyon. Reid says that he did not know of the hills on the state highway, else he would not have attempted them with his big load. He made the first hill, but stalled on the second. At the coroner's inquest he said:

"I had to stop. I had a big red lantern on a post at the left at the rear. After I stopped, I waited until several automobiles came along, and I stopped them, and asked if they could see my red light well. They all said they could. I transferred a white light from my machine to the front of the trailer, blocked it with log and rope, and went on. The right front wheel of the trailer was on the right edge of the pavement, the rear not over four or five inches from the edge."

Principal Witness
Floyd Olds of El Toro was the principal witness examined by Coroner Winbiger.

"My wife and I were driving from Santa Ana to El Toro," said he, "when these two boys on a motorcycle passed us just before we got to Culver's corner. My wife remarked that they had no light. They moved right by us, and were soon out of sight. They were going at a good speed."

"I saw the red light on the trailer when we were half a mile from it. It was a big lantern. I saw the man who turned out to be French staggering. He fell. I hurried to J. B. Triplett's blacksmith shop, left my wife there, and Triplett and I went back and got the injured men and took them to the Santa Ana Hospital."

Terrific Impact
Triplett testified that he examined the surface, and it was plainly indicated that the impact of the motorcycle had shoved the trailer ahead fifteen or eighteen inches and to the left three or four inches. Triplett said that light on the trailer was visible half a mile.

J. J. French of Los Angeles, brother of the dead youth, said Silverton and Martin were chums. Martin lived with a sister, Silverton with his parents. They were riding a new Harley-Davidson machine, belonging to Silverton, who was driving. Martin has been suffering from slight concussion of the brain and has been unable to give any running account of the accident as he remembers it.

On the jury that heard the evidence brought out by Coroner Winbiger were T. J. Harrin, C. N. Grace, C. H. Chapman, Will L. Noble, W. T. Sexton, Paul Carnahan and F. W. Evans. The jury in its verdict merely stated the cause of death and made no comment and fixed no blame.

WHEELMAN INJURED BY INTOXICATED DRIVER

R. H. Mills, automobile mechanic, was arrested this morning on a charge of driving an automobile while intoxicated. E. C. Cornett, 702 East Pine, is the complainant. Cornett was injured yesterday afternoon, when his bicycle was struck by Mills' car.

The accident happened about 5 o'clock yesterday afternoon on East First, near the cannery. Cornett had just left the cannery on his wheel to go home, when Mills came along in his machine. Cornett was well over to the side of the street. Mills in looking back over his shoulders at parties walking on the sidewalk, turned his car to the right and ran Cornett into the curb. Cornett's injuries are slight. C. C. Morton of Newport was in the car with Mills.

R. H. McManhan, a Los Angeles police officer, was in a machine following that of Mills, and witnessed the accident. Mills resides at 719 West Fifth and until recently has been employed at the Perry garage.

2 DEAD, 21 INJURED SUNDAY TOLL AT S. F.

SAN FRANCISCO, Aug. 20.—Two dead and twenty-one injured is the toll taken in automobile accidents in and near San Francisco during the last twenty-four hours.

'UNWARRANTED' COMMENT OF INDUSTRIAL SECRETARY

Agitated Over Arrest of I. W. W.'s By Federal Officers

NEW YORK, Aug. 20.—"Unjust, unconstitutional and unwarranted." This was the comment this afternoon of William Hayward, I. W. W. secretary, on hearing of the arrest by federal authorities of the striking I. W. W.'s in Spokane.

Haywood denied that German money was behind the I. W. W. activity.

Two thousand men have been arrested for anti-war activities but no one convicted, Haywood asserted.

GENERAL STRIKE HAS LITTLE EFFECT
PORTLAND, Aug. 20.—The I. W. W. general strike scheduled to begin today in Oregon, Washington, Idaho and Montana appears to have failed. The saw mills, lumber camps, etc., are running as usual. They announced that the strike was of little effect.

SAN FRANCISCO, Aug. 20.—Rioting and gun play figured today for the first time in the strike of 1800 carmen of the United Railroads.

One conductor strikebreaker was attacked and gun shots were fired at him. Later three strikebreakers were severely beaten.

SPOKANE, Aug. 20.—I. W. W.'s in Washington, Oregon, Idaho and Montana staged a "general strike" today as the result of the governors of the four states refusing to release "war prisoners."

Early reports here indicate that probably not over 2000 men in the four northwestern states walked out as a result.

The I. W. W.'s demand an eight-hour day, better sanitary conditions and release of "war prisoners" and a class which includes a large number of interned Germans, slackers and "industrialists."

Army authorities here today began an investigation of the plans and activities of I. W. W. leaders following the arrest of William Rowan, in charge of a strike here and a number of leading I. W. W.'s.

Rowan was arrested by Major Wilkins and a squad of guardsmen at the I. W. W. headquarters. The I. W. W. did offer resistance and outside the hall a double column of soldiers with the industrialists between marched through the streets.

A crowd gathered and followed the arrested agitators. "I've wired Haywood," one man yelled at Rowan.

Twenty-Seven Arrested
"No talking to men in ranks," Major Wilkins commanded.

The investigation into the activities of Rowan and his associates is being made by army authorities. No charges have been placed against the men. Twenty-seven were arrested.

Following the refusal of the city authorities several weeks ago to prohibit I. W. W. strike meetings, Major Wilkins today ordered all street speaking by the agitators stopped. Soldiers to patrol the streets on which I. W. W.'s have been holding meetings.

Army authorities are determined to stamp out the I. W. W. movement in this district.

Spokane has been the center of I. W. W. propaganda for months. Strikes in the Idaho Pan-handle and Eastern Montana were conducted from here. Literature was sent from here to all points in the Northwest and agitators met here and planned new campaigns.

LOS ANGELES RANKS DELETED

LOS ANGELES, Aug. 20.—So great has been the exodus of members of the I. W. W. from Southern California to join the "armies" in the Northwest, that not enough men remain here to launch any "movement" against the "capitalistic class."

This is the consensus of opinion of the few I. W. W.'s who met yesterday to discuss the local situation, it was learned today.

"Southern California is not immune from an 'attack,' however," said one speaker. "Our great army is mobile and some day it may visit Southern California to correct some of the existing conditions which are far from satisfactory to us. Much depends on how the 'attack' on the Northwest ends."

POST OFFICE BOYS PRACTICE UNCLE'S ORDERS TO LETTER

No one need say that Uncle Sam does not practice what he preaches, in the way of economy and conservation.

A visit to the local post office will disprove any such accusation. For as one looks into the general delivery department he will see S. S. Vogt, present acting assistant postmaster, busily engaged in unravelling twine which has been wrapped about packages of letters. Beside him will be seen C. H. Severance, delivery clerk, conscientiously tying the bits of string together and winding them carefully on a large spool, specially constructed by L. F. Harvey.

Uncle Sam has sent on orders to "save the waste, and win the war," and the local post-office force is doing its bit. As evidence of this the boys show huge blisters worn on their hands by the continual winding, winding of the twine.

GEN. PERSHING SURPRISES MEN IN INSPECTION

Commander Is Well Pleased By Spirit Shown By Expeditionary Troops

BY J. W. PEGLER
(United Press Staff Correspondent)

WITH THE AMERICAN EXPEDITIONARY ARMY IN FRANCE, Aug. 20.—General Pershing thinks his soldiers are "progressing satisfactorily" in their battle training. He said so today following a surprise inspection visit yesterday.

"I am entirely satisfied with what I have seen," the American commander asserted.

"One thing that impressed me forcibly was the spirit of the officers and men."

The first notice the American troops had of their commander's visit was an excited burst of bugle calls about dawn. The men tumbled hurriedly from their bunks and lined up at assembly. Then the word flew over the camp that General Pershing and General Petain had quietly slipped into the adjacent town during the night.

At Attention
The United States troops stood at attention while a dust cloud grew bigger and bigger on the snake-like road, heralding the visitors' approach in automobiles. Then came the formal reception at camp headquarters and the inspection. The two generals passed between long rows of the American troops, General Petain being particularly interested in the sharp-shooter and marksmanship medals won by numerous American fighters.

He stopped to examine them and to talk to the men thus decorated.

Petain and his staff wore the French horizon-zue uniform, contrasting vividly with the dull colored "o. d." of the troops they were inspecting. French villagers, clothed in their "Sunday best," watched the whole proceeding with awed interest, tagging along behind.

Kisses French Girl
At one point in the inspection tour a little red haired girl stepped in front of the line. The French officer stooped over and kissed the girl on both cheeks. General Pershing hesitated and then did likewise.

The American fighters were pleased with their own showing at the inspection. It afforded them an opportunity to demonstrate that they had profited by previous criticisms and acquired more snappiness.

ALLIES TO CONFER, INDICATION TODAY

WASHINGTON, Aug. 20.—Rejection by Russia of the pope's peace proposal is foreshadowed in the official statement issued this afternoon at the Russian embassy.

"An answer to the Vatican's peace proposal is not yet formulated by the Russian government but it is the feeling in Russia that the proposal was made with some inspiration from the central powers," is stated today.

It is considered in Russia that the very basis of the Vatican's proposal is inconsistent with the democracy of the Russian people in this war and not acceptable from that standpoint.

LONDON, Aug. 20.—The allies will confer before reply is made to the Vatican on Pope Benedict's peace plan.

Lord Cecil, minister of blockade, made this announcement in the House of Commons today.

Lord Cecil did not indicate whether a conference had actually been called or not. His statement was made in reply to a question from a member of parliament.

BLOODY BATTLE AGAIN RAGING ON HISTORIC BATTLEFIELD

Verdun Again Scene of Terrific Fighting As British Advance

TANKS ASSIST WITH NEW SMOKE SCREEN

Italy Waging Determined Offensive Against Austrian Lines

PARIS, Aug. 20.—A new and terrific battle was reaching the climax today around the bloody ground near Verdun. Today's official statement declared the fighting had "developed in our advantage."

The conflict was over a front of twelve miles, extending from Avocourt wood to Bezonvaux.

TANKS FORM SMOKE SCREEN
LONDON, Aug. 20.—By sheer weight of steel, the British forced continued recessions of the German line in the Ypres-Poelkapette sector today.

A brand new wrinkle greatly aided the British drive. It was the use of tanks equipped with smoke devices, permitting the lumbering war machines to progress enveloped in a veritable fog which prevented accurate location from the artillery.

The British losses have been extraordinarily light, considering the intensity of the drive. The crumbled, shell-torn ground conquered, however, showed heavy German losses.

For a week now guns on both sides of the Verdun sector have been violently active. The roar approached drum fire yesterday and the infantry came into action immediately afterward. Front dispatches today told of desperate fighting in these clashes, extending into a great struggle over the whole of the twelve miles. French troops forged ahead at numerous places.

HAIG ANNOUNCES ADDITIONAL GAINS
LONDON, Aug. 20.—Further gains in the Ypres sector were announced by Field Marshal Haig today as the sequel to vigorous fighting last night in Flanders.

"Our line was slightly advanced southeast of St. Janshoek," he declared.

Haig also reported repulse of a German counter-attack against new British positions southeast of Epehy. There was violent fighting in this sector.

South of Lens the British troops made a successful raid.

LONDON, Aug. 20.—"Many tons" of bombs were dropped on the Ghent railway station and siding, Thourout station and the Bruges docks last night by British seaplanes, an admiralty statement announced today. Yesterday morning the Germans attacked the aerodrome at Snalingham and in the ensuing battle one enemy machine was downed. All British machines were uninjured.

ITALIANS GAIN NEW POSITIONS
ROME, Aug. 20.—Italy's drive today carried Cadorna's troops across the Isonzo river in north Anfova, and into the Austrian front trenches, from Plava clear to the sea.

The official report announcing the victory declared that 7,500 prisoners had been taken. The enemy's losses are described as most serious.

BY JOHN H. HEARLEY
(United Press Staff Correspondent)

ROME, Aug. 20.—Italy is today waging a determined offensive against the Austrian lines from the Adriatic to the Alps.

Fighting of great magnitude is in progress. The blow is probably the hardest the Italians have yet struck, and early reports tell of initial successes gained by General Cadorna's troops.

The offensive followed days of artillery preparation and extensive aerial activity during which Italian observers brought the most valuable information to Italian headquarters.

Assaults were launched on the Carso, Isonzo and Julian fronts simultaneously, the troops working in such concert as to weld the three attacks into one gigantic effort.

On Big Scale
The attack was opened on a tremendous scale, the Italian infantry leaving its trenches on a wide front as the artillery fire was lifted. Word from headquarters was that the attack was expected to be the most effective the Italians have yet attempted.

The total length of the battle line on the Carso, Isonzo and Julian fronts is about 90 miles. Italy's April offensive centered for the most part along the Isonzo, from Gorizia south to the Gulf of Trieste, where the drive was toward the Austrian seaport of Trieste. Italian troops penetrated to within fourteen miles of this queen city of the Adriatic.

ORANGE PRICES FOR WEEK ARE UNCHANGED

California Fruit World Reviews Conditions in Eastern Cities

The California Fruit World, in its weekly review of citrus fruit shipments and market conditions for the week ending Friday, says:

"There has been practically no change worthy of note in the Valencia market the past week. Gains were noted in some instances in a number of markets, only to be followed by the following day, this state of the market being the rule practically throughout the week. A fairly good demand exists, however, for best stock, and the market may be said to be in a healthy condition on this class of fruit.

"Some low-grade stock, together with fruit showing age is selling low as it commands little, if any attention from the best trade, and for this class of fruit there seems to be very little encouragement for the future.

Offerings of both Northwestern and California deciduous fruits continue liberal in the Eastern markets and local Eastern summer fruits are now being shown up in liberal quantities and is having considerable bearing on the Valencia situation.

"Just now California pears constitute the bulk of the deciduous fruit being shipped. Shipments of peaches are next in volume, followed by plums and grapes, the movement of the latter having practically just commenced. Daily shipments are averaging 238 cars as against 144 cars at this time last season.

"With such a heavy supply of fruit thrown on the markets, the demand for Valencias has necessarily been somewhat curtailed and no material change is looked for until the heavy supplies of summer fruits have been exhausted.

"Shipments for the past seven days have totaled 525 cars of Valencias as against 513 cars the previous week. "F. o. b. quotations on fancy Valen-

AMERICANS WIN HONORS FOR MILITARY BRAVERY

LONDON, Aug. 1.—(By Mail).—Two American Lieutenants of the Canadian army today won the Military Cross as a reward for their bravery and leadership under fire. A. H. Pannill, of Chatham, Va., and Donald MacRae, of Washington, D. C., whose father is in the adjutant general's office, were decorated by King George in recognition of their valor.

Pannill, at Vimy Ridge took command of a company, captured part of a second-line trench and established a machine-gun position in a crater beyond the trench. His command suffered severe casualties. Pannill himself, though wounded by shrapnel, remained on the job for twenty-four hours consolidating gains. He recently transferred to the Royal Flying Corps.

MacRae found that his major's crown was keeping him out of action because the army needed active lieutenants and was plentifully supplied with major officers. The Washington man was so anxious to fight that he "pulled two stars" from his sleeve and took the rank of lieutenant. The act for which he received the Military Cross was performed on the Military front some time before the big assault.

Dr. Enoch, phone 502W 411 1/2 Main.

H. E. Johnson has opened up a new sale barn at 703 West First, phone 1243-J. He will have on hand for sale at all times, first class horses and mules; also hay and grain.

SCHOOL CHILDREN TO TEACH WAR ECONOMICS

Will Be On Duty at County Fairs to Teach Methods Of Preserving

WASHINGTON, Aug. 20.—Uncle Sam has just recruited and trained an army of 800,000 American boys and girls, who will be on duty at state and county fairs everywhere this fall.

Their work now consists of helping their fathers and mothers preserve, pickle, dry and can the enormous surplus of America's war gardens. Their work at the fairs will consist of practical demonstration of methods.

It is estimated that this juvenile army will exhibit its prowess and products to about 20,000,000 Americans. They will be the principal attraction at the series of Food Training Camps the Department of Agriculture is organizing for every section of the country for late August, September and October.

The boys and girls in this great food drive are the members of the thousands of Boys' and Girls' clubs organized by and working under the direction of the United States Department of Agriculture.

The national headquarters is at Washington with a specialist of the juvenile extension department in charge.

Each day at the Food Training Camps the children will can and dry food products in different ways, giving the public a correct idea as to how it should be done.

The particular boys and girls who will demonstrate for the state colleges of agriculture and for the government, are now being chosen through a series of competitive tests in practically every community in the country. These contests are being held in the schools, at community fairs and picnics, and at other public gatherings. Only the winners in the larger local contests, who have shown by their work that they are capable of discharging the tasks the government will give them, will be permitted to demonstrate at the Food Training Camps.

SAYS BEAN MEN GOING TO NEED 1000 MEN

Employment Bureau Operator Declares That Labor Is Already Short

LOS ANGELES, Aug. 20.—With the harvest just starting, bean growers of the southern counties of California yesterday began making efforts to employ the more than 1000 men necessary to cut and pile the beans. Los Angeles became the center of their efforts. Growers of Ventura, Los Angeles, Orange and San Diego counties communicated with employment agencies of Los Angeles.

The men employed first will be paid about a day and board. Their work will be the cutting and piling. In a short time the beans will be threshed. Then there will be a demand for more skilled laborers, who will be paid from \$2.50 to \$5 a day and their food.

There are thousands of acres of first-class limas, blackeyes and the regular white beans to be harvested. The crop is reported to be slightly above normal.

"Labor is short," George Hummel of Hummel Brothers' Employment Agency said. "It is probable we will need more men than we can find. The calls we are receiving now are from growers whose crops have ripened ahead of the season. Within a week the regular season will be in full swing. Then we expect a tremendous demand for labor."

FIRST WAR WEDDING OF GERMAN-FRENCH

BORDEAUX, Aug. 3.—(By Mail).—For the first time during the war a purely Franco-German marriage has taken place here.

Local papers carried the message without comment. The contracting parties were Ernest Carl Braunschwig, "German subject," and Miss Marie Jeanne Huni. Braunschwig is an employee of a commercial house at Libourne, near here.

SCHOOL FOR CREWS OF EMERGENCY FLEET

BOSTON, Aug. 14.—While the timber and steel for America's great emergency fleet is being gathered from the woods and the mines, hundreds of men are being moulded into competent officers and engineers for the completed ships.

When the call went out for men to train for America's great merchant marine it reached the far Pacific, the south Atlantic and even to the fishing smacks off the coast of Maine.

They began to drift in one by one—a weatherbeaten fisherman from Maine, perhaps an engineer of a tramp, even oilers and tenders came, and each found that he could improve his rating by the course in the free government school at Boston.

The school is the largest of seven free schools of navigation throughout the country, and one of thirty such to be started soon. The men get intensive training in the technical side of navigation in courses that are complete in from a month to six weeks, according to the knowledge of the student.

It has not been easy for these men of the sea to buckle down to "book learning." The processes involved in learning algebra is accompanied by much chewing of pencils and scratching of heads, but they are making good.

There is no time lost. The courses are intensive, and the "students" are working with that earnestness seen only in men who are making up for the lack of that quality in their school days.

Each works silently, and beyond the printed pages of the text book before them they see the vision of a trim ship of "The Fleet," and the particular "berth" for which, each after his kind, is fitting himself.

NEWPORT BEACH

NEWPORT BEACH
WILL VOTE ON
DREDGING
BONDS

Council Passes An Ordinance
Calling For Special Elec-
tion For \$50,000 Bonds

Newport News: Upon motion of Trustee J. J. Schnitzer, the Board of Trustees, at its meeting held in the city hall Wednesday evening, voted to call a special bond election for \$50,000 for the purpose of improving the harbor from East Newport to Twenty-fourth street, and also for dredging at the mouth of the harbor. Resolution No. 82, providing for the widening, deepening and straightening of the channel, was passed and paved the way for action on the bond question. While there was no opposition to the proposed channel improvement, considerable heated debate was indulged in by both members of the board and citizens, when the matter of the amount of money needed was taken up. There was a diversity of opinion ranging from \$10,000 to \$70,000, some basing their estimate upon the report of Leeds & Bonnard, the jetty engineers.

Figures furnished by City Engineer Paul Kressly were given upon some plans based upon a channel 125 feet wide, 8 feet deep and approximately 7000 feet long, extending from 2nd street to 24th street, making the total amount of dredging to be done, 260,000 cubic yards, which, at an estimate of 15 cents per yard, would amount to \$39,000. Lew H. Wallace pointed out that at least a part of the expense could be saved by selling the soil or sand taken from the bay to property owners who wished to have their property brought up to grade, and said he thought the \$50,000 would be sufficient for the present needs. He also stated that seven engineers had given their opinion regarding the dredging at the harbor mouth, and they were

A STRANGE CASE.
Blood Turned to Water

Oakland, Cal.—"My sister-in-law was poisoned, her blood turned to water, the doctors gave her up, said she could never be cured. She finally took Dr. Pierce's Golden Medical Discovery which cured her. We consider it a miracle."

"I have had six operations which left me in a nervous state, with loss of sleep and appetite. I commenced using Dr. Pierce's Golden Medical Discovery and Pleasant Pellets. My general health commenced to improve after the first bottle. I took six bottles and was cured, gained 30 pounds. I wish to give Dr. Pierce the highest endorsement for his remedies."—Mrs. Max Trudow, 201 26th St.

Many California people need this powerful vegetable remedy that puts the stomach, liver and bowels in fine condition; that clears the skin of pimples, rash, blemishes, and eczema; that dissolves boils and carbuncles; that makes nerves stronger and steadier; and gives to pale, weak, run-down people the fullest measure of health and happiness.

Dr. Pierce's Golden Medical Discovery, free from alcohol or narcotics, does just what is stated above, simply because it banishes from the blood all poison and impure matter. It dissolves the impure deposits and carries them out, as it does all impurities, through the Liver, Bowels, Kidneys and Skin.

If you have a bad cough, bronchitis, nasal or other catarrh, unsteady nerves or unsightly skin, get Doctor Pierce's Golden Medical Discovery to-day and start at once to replace your impure blood with the kind that puts energy and ambition into you and brings back youth and vigorous action.

All medicine dealers can supply you in either liquid or tablet form or send 50 cents for trial box of tablets to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y. Write for free booklet on blood.

all agreed that the city had about an even chance with fate, or a fifty-fifty chance that the ebb and flow of the tide would scour the channel without dredging.

Albert Humes was strong for making the bond issue large enough to meet all possible contingencies, and favored an amount of \$75,000, but there was considerable opposition to this much being asked for, and a happy medium was struck. Interest on the bonds was fixed at 5 1/2 per cent.

Upon motion by J. P. Greeley, J. W. Burton of Los Angeles, who was recommended by Leeds & Bonnard, was hired for the inspection work on the jetty at a salary of \$175.00 per month.

BREAK RECORD
IN BUILDING
Y. M. C. A. IN
ARMY CAMP

SAN FRANCISCO, Aug. 20.—With the completion this week of navy Y. M. C. A. buildings at Vallejo for the sailors and marines at Mare Island Navy Yard, and at the naval training station on Goat Island, a record which the national war work council of the Y. M. C. A. points to with pride has been achieved and service extended to thousands of sailors and soldiers about the San Francisco bay district.

Since the first of this year army or navy Y. M. C. A. buildings have been erected at Fort McDowell, Angel Island, at the Presidio, San Francisco, and a building given to the association by the Panama-Pacific Exposition officials moved from the exposition site to a place in the Presidio; five buildings have been planned and are about to be erected at Camp Fremont, Menlo Park, the San Francisco army and navy association building has been moved from Market street to enlarged quarters at 226 Embarcadero, tents have been erected, equipped and manned by secretaries at Fort Mason and Tanforan and the west flats at the Presidio; an extension service has been instituted in charge of M. J. Minkler, who reaches the soldiers stationed at Forts Miles, Baker, Scott, Barry and Funston.

In the face of all this work since the war began the officials of the national war work council of the Y. M. C. A. are now planning to extend the service in order to reach the soldiers when they visit this city. Already Lyman L. Pierce, general secretary of the San Francisco Y. M. C. A., is planning to extend the privileges of the local association to the soldiers and quarters are being sought in the business section where recreation centers may be established and the army association work carried on in the city so that the soldiers may have a welcome place to visit when they are in the city for pleasure.

ATTORNEY-GENERAL
ISSUES NEW RULING

SACRAMENTO, Aug. 20.—Attorney General Webb has declared as constitutional an amendment passed by the last Legislature which directs the State Board of Horticultural examiners to select and appoint a county horticultural commissioner in a case where the county Board of Supervisors neglects or refuses to do so.

The ruling was made at the request of G. H. Becke, state horticultural commissioner, who was doubtful as to the constitutionality of the amendment.

Webb further ruled that the amendment does not conflict with the section of the constitution which provides that the Legislature shall not in any way interfere with any county money. He says that the appointment of a commissioner by the examiners cannot be viewed as interfering with county money.

California was second in number of motor cars as to population, having one car to every 12 persons.

CHENEY FIGHTS
YELLOWTAIL;
SMALL BASS
IS REWARD

San Joaquin Ranch Farmer
Has Novel Experience
On 9-9 Cruise

Billy Cheney is not a millionaire but he is one of the many prosperous bean growers on the San Joaquin ranch, and one could have bought him yesterday for thirty cents, for he had an awful cheap look on his face when he pulled in a little three-pound bass when he thought he had a big yellowtail on his hook.

Billy accompanied Commodore Clem Beard on a cruise on the 9-9 at Newport Beach yesterday and the party was having fine luck fishing off San Juan Point. Suddenly Cheney got a strike. A big yellowtail grabbed his hook. With the experience of a veteran fisherman, Cheney commenced to play his strike. The fish was game and gave him lots of sport. Cheney tightened and loosened the line alternately for half or three quarters of an hour.

"It's a monster," shouted Billy to his companions, as he settled down to fight with the game fish.

Inch by inch and foot by foot he shortened the line between his reel and the denizen of the deep. Closer to the boat came the fish. A heave and it was on the deck. It was a bass.

And Billy was "abass(h)ed."

It developed that the yellow tail had got loose from the hook and that while Cheney was taking up the slack the bass took hold of the hook.

Six yellow tail were caught on the cruise, the first the members of the club owning the 9-9 have taken in two years. A total of 230 fish were caught, 60 or 70 of which were bass and the balance were barracuda.

SLACKERS HAVE
MUCH TROUBLE
WITH HEART

SAN FRANCISCO, Aug. 20.—An epidemic of heart failure is sweeping through certain elements of San Francisco's population—that element which draft examiners passed as physically fit and capable of service but which don't want to serve.

If all the affidavits which have been filed in draft appeals from the decision of the physical-examiners are to be believed, the examining physicians made some terrible mistakes. The claims run all the way from rheumatism to near-sightedness and back again. But "heart failure" is the most popular resource of the drafted men who are appealing on grounds of "physical unfit."

"It seems that about 99 per cent of the men making appeals have suddenly discovered that they have heart-failure," said one attaché of the appellate board today.

Here's the way a typical claim reads:

"I have had heart trouble for the past two years. Much excitement renders me not only speechless, but powerless to do or act. I am exceedingly nervously constituted and have had a rather aggravated case of palpitation of the heart. I am narrow chested and weak lunged and am physically unfit for anything that necessitates hard labor or where there is much excitement. My employers have often expressed the opinion that I would drop dead some day from heart failure."

Another man writes the board that he has discovered a "leakage in his heart."

"On account of this leakage," he writes, "I now am a sufferer of inflammatory rheumatism and weak kidneys. I am also therefore immediately affected by the slightest damp weather." The writer's doctor, according to the letter, discovered the leakage.

Another who says he now is under indictment in the alleged Hindu conspiracy plots, declared in his affidavit that physicians on the exemption board had told him he was rejected as physically unfit.

"And then," he writes, "I received a notice that I had passed the examination. Why, they told me on two separate, distinct occasions that I was underweight, short-sighted and all-round unfit. Yet they passed me after I left them. There must be a mistake."

This man also claimed exemption because he said it was necessary for him to be in court almost continually to defend himself in the conspiracy cases.

CITIES REPEAL TAX
OF REALTY AGENTS

SACRAMENTO, Aug. 20.—Cities having ordinances which provide for the licensing of local real estate dealers are rescinding the ordinances in view of the state realty dealers' license act, according to Real Estate Commissioner Freeman H. Bloodgood.

Bloodgood says that this is an equitable and commendable action on the part of the city councils as it eliminates unnecessary taxation. Riverside started the move and other cities of the state are following Riverside's lead.

Twenty-nine hundred applications for licenses have been received from realty dealers by Bloodgood and it is keeping his staff of assistants busy sending out licenses. Three hundred licenses are being mailed daily.

MIT CHAPERONES
DRUGGISTS ON
WEEK'S JOY
FEST

Innocents Start Abroad In
White Streak, to Return
At Pleasure

With Mit Phillips as chaperone, three druggists quietly pulled out of town this morning for a "gay week" somewhere in California. It is said that their destination is Elinore Hot Springs, where the "jolly old sports" will while away the hours in basking in the sun and taking hot sulphur water baths.

It is understood that Mit is charged with full responsibility for the care of his comrades and that the wives of the drug dispensers gave their consent to their remaining as long as they wanted—provided they didn't "ditch" Mit.

Mit's wife is inhaling pure ozone as it sweeps over Keen's Camp in the San Jacinto mountains and therefore her consent to her hubby's holiday was not obtained.

With Mit at the wheel of his Buick White Streak and E. T. Mateer, W. G. Gould and John W. Norton occupying seats, the nose of the speedy old-timer was turned toward the point selected for the vacation, with the quartette waving their farewells to friends who had assembled to witness the start of a joy trip that promises to be full of real life for the members of the party.

MORE VETERANS
PRESENT THAN
EVER BEFORE

Christian Advent Assembly
People Gathering for
Meetings

HUNTINGTON BEACH, Aug. 20.—By dint of perseverance of the secretaries of the various state organizations of the Grand Army, additions to the registration roll have been made which not only brings the record of this year's encampment above that of last year, but makes it the largest of any in the past five years. The last name to go on the list today was that of J. F. Caldwell of Los Angeles, who enlisted in the Civil War in a regiment from Maine. His name brought the total registration up to 921, which is 112 more than that of last year.

Only a dozen or so of the old veterans are left on the camp grounds, which have been taken over by the Christian Advent Assembly for a ten days' session.

Not over one hundred members of this organization had arrived Saturday evening, but on Sunday a large number came insuring a good sized gathering, although it will not be as large as that of the Grand Army or that of the Methodists.

STUDIES STENOGRAPHY
HOPING TO SERVE IN
UNITED STATES NAVY

HUNTINGTON BEACH, Aug. 20.—Miss Melotte McKay, who was a student in the local High School last year and whose family has since removed to their former home in Hollywood, has been in the city the past few days as the guest of Miss Grace Foley. Miss McKay is of a very patriotic turn and would have desired to enlist in the navy if only she had been a boy. Following out her ambition she has, therefore, been putting in the summer attending business college in Los Angeles, studying stenography, typewriting and telegraphy with the hope of securing a position on one of Uncle Sam's big naval vessels.

'HE'S SPY' NOW
SPITE CHARGE
SAYS JUDGE

SAN FRANCISCO, Aug. 18.—"He's a spy."

That the latest in verbal "spite fences," according to Judge T. F. Graham, chairman of the county defense council.

Letters to Judge Graham and other officials containing charges that somebody else is in the Kaiser's pay, are in almost every mail and are causing no end of trouble to the officials. In most cases the letters are unsigned, but always find ink and paper enough handy to give the full history of the person on whom they wish to inform. Some 300 such letters have been turned over to the Department of Justice officials for investigation.

"In almost every case," declared Judge Graham, "the letters have been found to be the work of a crank or to have been inspired by spite. Evidently the writers are attempting to 'get back' at the persons mentioned in the letters."

While deploring such letters when written for "cussedness," officials reiterate that they welcome information given in a sincere spirit.

THIEF WALKS OFF
WITH CASH BOX
AT PRODUCE
STORE

Forty-eight Dollars In Gold
and Silver Picked From
Office Desk

A bold thief walked into the Santa Ana Produce Store Saturday evening about 7 o'clock, picked up the cash box in the bookkeeper's office and leisurely walked out with it—\$48 to the good.

The bookkeeper had gone home and the proprietors of the store were busy waiting on customers when the man walked in and helped himself to the cash. Forty dollars of the money was in gold and the balance in silver.

The proprietors noticed no suspicious characters in the store between the time the bookkeeper departed and the time the theft was discovered. They have no clue. The cash was kept in a small wooden box, and it is believed the thief was someone who is familiar with the store.

HUNTINGTON BEACH

BEACH TO HAVE
A CELEBRATION
LABOR DAY

Committees Have Been Ap-
pointed to Manage the
Affair, Sept. 3

HUNTINGTON BEACH, Aug. 20.—The Chamber of Commerce of Huntington Beach has laid plans for what is to be called "Community Day" in celebration of Labor Day, September 3. The following committees have named:

Entertainment—Leonard Obarr, Dr. F. E. Wilson, C. E. Kutzner, City Attorney Alex. P. Nelson, C. R. Furr.

Finance—Louis A. Copeland, Joseph Vavra, J. K. MacDonald.

Sports—William C. O'Connor, Tommy Burns, M. A. McCreery, Franklin E. Skinner.

Music—Ralph C. Turner, C. H. Endicott.

Advertising—W. E. Tarbox, C. R. Furr.

Decorations—Geo. W. Wardlow, Charles R. Nutt, Stanley Coates.

Picnic Dinner—W. M. Adair, C. A. Paul, A. M. O'Brien, Gale S. Bergey, H. T. Dunning, F. H. McElfresh.

Concessions—John Tinsley.

The South Coast Improvement Association will hold a meeting at the Huntington Inn this evening at 6:30. A son was born to Mr. and Mrs. W. T. Newland Jr. Wednesday evening. He has been named William T. Newland and is the third of that name in direct line now living.

Mr. and Mrs. James J. Lash have sold their home at Huntington and California streets to City Clerk Chas. R. Nutt and have moved to Sawtelle.

Mrs. E. K. Taylor and son Monroe, who have been spending their vacation at the Huntington Inn, have returned to their home in Los Angeles.

Mrs. G. F. Andrist of Santa Ana, who has been spending her summer vacation in this city, has returned to Santa Ana.

Miss Margaret Condie of Pasadena, is the guest of Mr. and Mrs. C. D. Heartwell this week.

Miss Mariam Paine left Wednesday for Rialto, where she will be the guest of Miss Ruth Hill for several days.

Miss Hazel Hill, who has been in Huntington Beach for several days, has returned to her home in Rialto.

Word has been received by local friends of Mrs. Leona Mudgett Crawford that she and her husband are very much pleased with their location in Honolulu where Prof. Crawford has accepted a position in the Federal University.

Lionel Stearns of Los Angeles, is spending his vacation in Huntington Beach and is in the employ of the city.

APPOINTED SECRETARY
Mrs. Ernest L. Payne has been appointed secretary to Principal V. B. Brown of the High School, for the school year.

RETURNS FROM TRIP
HUNTINGTON BEACH, Aug. 20.—Miss Florence Larver, who has been visiting in the northern part of the state, has returned to her home north of the city. She was accompanied by Miss Mildred Donahue, a summer student at the University of California, who will visit her for a few days.

SAYS BOARD WALK
WOULD PROVE TO
BE AN ATTRACTION

HUNTINGTON BEACH, Aug. 20.—Tommy Burns, the proprietor of the Huntington Inn, is advocating the construction of a board walk along the bluff, similar to the famous board walk at Atlantic City, New Jersey, as one of the attractions for summer visitors.

THE PEOPLE'S COUNCIL OF AMERICA

with more than two million members, an organization which is seeking a road to peace and democracy, which does not lead over the slaughtered bodies of millions of the humble toilers of all nations, will elect Orange county delegates to the Minneapolis convention, Tuesday evening, Aug. 21, at 8 o'clock.

My Country 'Tis of Thee, Sweet Land of Liberty.

HONOR DUE

Within the next two weeks the first contingent of men chosen by selective service as this county's representatives in the new army will be starting for a mobilization camp.

That is going to be a memorable occasion in this county. Whether or not any great gatherings are held, regardless of the playing of bands and the parades of people, it is going to be an occasion without a parallel in the history of the county.

That the departure of these young men should go without a rousing send-off is not to be considered as a possibility. They are going forth to represent us who remain behind. They are going forth to fight our fight, to take the brunt of whatever comes in carrying out the plans of our government for the perpetuation of the principles of democracy. They are going forth to take their stand among the many hundreds of thousands of men who will soon be training under the Stars and Stripes to fight for our flag in whatever lands and under whatever skies it may be found necessary for them to go to do their part in bringing the great war to a successful end.

All honor to these men. They are chosen as your representatives.

Let our various organizations take active steps for giving these men an expression of our appreciation of the situation and of the sacrifice that they are making in leaving this quiet valley of prosperity and comfort for the things that are before them. No gathering can be too big. No program can be too thrilling.

THE LID IN PARAGUAY

Just about 381 years after its founding—on August 15, 1536—the city of Asuncion in Paraguay decided to put the ban on gambling. The news dispatch reads:

"The local newspapers are unanimously applauding the order of the chief of police which put a stop to all gambling in clubs and societies on July 1. The order includes games of chance of all kinds and assures the disappearance of several large establishments in this city whose sole attraction was gambling."

To most people it will come with a shock of amazement that Paraguay should have a city "with clubs and societies" of a character to be called "large establishments." A mixture of marshes and mountains and uncivilized Indians and unnavigable rivers is the average American idea of Paraguay. But that just goes to illustrate the average American ignorance of everything in South America.

Paraguay is, it is true, far behind its neighbors, Bolivia, Argentina and Brazil, in civilization. Yet in 1908 it exported goods to a value of more than \$3,500,000. Education is said to be far behind that of the other South American republics; yet in 1907, when the country had a total population of about 700,000 there were 554 primary schools with 41,000 pupils. How far the education of these people progressed isn't certain, but some of them must at least have learned to count—or the city of Asuncion would not be obliged to take its gambling so seriously.

"As a general rule the Paraguayans are indolent, especially the men," says the encyclopedia. Which is perhaps another reason why the energetic exceptions to the rule wanted to stop the gambling. For in a world at war the waste of time and energy spent in games of chance can no longer be tolerated. All over the world, as well as in little Paraguay, the lid is being clamped down on all those activities provided by Satan for idle hands.

UNCLE SAM, MIDDLEMAN

The federal government has tackled the coal problem in earnest, and the public at last begins to entertain some hope of relief from exorbitant prices. The plan said to be favored by the administration constitutes a striking innovation. There is to be no attempt to take possession of the mines. The government will simply shove aside the much-abused middleman, and proceed to play the role itself. Through the agency of the Federal Trade Commission, by virtue of power conferred by Congress, it will make itself the sole purchaser and distributor of the

product of American coal mines. The government, buying all the product of all the mines, would pay in every case only the actual cost of production plus a fair and uniform percentage of profit. It would place representatives in every mine, so that there could be no mistake about the cost of production in that mine. This is said to be the way in which many railroads and large corporations buy their coal. All the fuel thus obtained would be pooled, and the government would sell coal of any given grade at the average cost of production.

Thus any particular community could be supplied from the most accessible district. With a fixed average price for each grade at the mouth of the mine, the government could determine the proper selling rate at any place, based on the freight rate from the nearest field. The coal would be sold to the retail dealers with the stipulation that they must take a definite, moderate rate of profit.

This looks like a fair proposition, and the plan cannot be put into operation any too soon to suit the consumers.

With Malice Toward None

By Henry James

An Inquiry
"Upon what foundation does the infidel base his assertion that death will forever close the book of life?" So, in a serious moment, asks a newspaper paragrapher.

The assertion is not based on a foundation. It has no basis. Once the ancients held that the earth was supported on the back of an elephant, the pachyderm standing on the back of a tortoise. Questioned as to the footing of the tortoise, they were wont to reply naively that the animal was "to those all the way down." Analyzed, even in a spirit of liberty, this contention appears to lack substance, and to be weak both from the angle of mechanics and logic. However, compared with the structure sustaining the infidel, the elephant and the tortoise are seen to have the advantage. At least there are such creatures as the elephant and the tortoise. But when a man believes that death ends all, argument with him is a waste of breath. Therefore it is sedulously omitted from this comment.

Not So Very American
Karl M. von Weizsacker is heralded as an American newspaper man. Surely none would suspect this, either from the name or the stuff to which the name is appended.

Wishing the Horse on Us
One of the star orators at a recent convention of butchers lately proclaimed that Americans soon would be eating horse flesh, which he declared to be palatable. Certain authorities contend that human flesh is palatable, but nevertheless the habit of excluding it from bills of fare is generally approved. Americans have a sentimental regard for the horse. They do not desire to eat it. Moreover, the horse is valuable for other purposes, and the only ones that might find their way to the abattoir would be the aged and blind and halt, too maimed and decrepit to pull a cart.

A Bad Actor
Joe Howard, a sort of actor, has gone into bankruptcy with liabilities of \$127,238, including various small touches to chorus girls, and not a bean in the way of assets. Howard seems to have acted variously, but seldom on the square.

Our Remarkable Age
Truly this is a remarkable age in which we are living, nothing in it more marvelous, however, than the fact that some people still believe in astrology.

Out of Place
Down at the beach towns a flyer has been performing such remarkable stunts as to create wonder that he is not at the front where his skill would be of value.

Wrong Latitude
The Colorado girl who started into the hills to play Eve did not provide the essential properties. There isn't a fig leaf in all that state.

Defective Warrant
Up in San Francisco they arrested a fiery-tongued lawyer for interfering with the select to eat it. More-over, the warrant covering all the eminent citizens on the platform. In all probability ex-Senator Works and David Starr Jordan could have given bail.

Dreaming of Immunity
Some hopeful souls think there is a prospect that Red Cross vessels will be immune from attack by U-boats. They base this on the belief that Germany may promise the immunity. And suppose that Germany does make such a promise, what then?

In Bad Company
Senators Reed, Gronna and La Follette are habitually in bad company because in the company of each other; but why should Penrose butt into that crowd? Surely the Pennsylvania must think that he has a reputation to sustain, and it is strange to observe him throwing this away.

Where War Began
According to the recent statement of a pastor, war began in heaven. His mention of the subject was not the first. But if it did begin there, it has sloped over something fierce.

Exemption Jokes
The attempt of the son of George Gould to be exempted on the ground of having a dependent wife was one of the jokes of the draft. The exemption boards are for serious business, and probably do not like to have any gilded scion of the non-tolting class get gay with them.

Pacific Thought-Waves
Certain earnest souls propose to project thought waves to Europe to end the war. They can't reach. The brand of thought they harbor couldn't be so energized as to more than barely seep through their whiskers.

Register ads are the best

CANNING LESSONS

One good result is coming from the war in that the people of the country are turning to many of the tasty and nourishing dishes of our grandmothers' day. Perhaps the most important of these dishes is hulled corn, says today's bulletin from the National Emergency Food Garden Commission.

To prepare hulled corn, dissolve half a can of lye in a quart of water and dilute to three gallons. It is best to use a large iron kettle for this purpose. Add four quarts shelled corn and simmer until hulls start to crack. Wash in pan of cold water and rub with hands to remove hulls. Skim off hulls and change water several times. Place on fire and simmer slowly, adding fresh water and stirring with wooden spoon every few minutes. Change water and rub corn five or six times until corn is clean and white. Keep in cold water over night and in the morning wash the corn several times with hot water.

Hundreds of inquiries are coming to the commission in regard to the awarding of \$5000 in prizes and certificates of merit for the best canned vegetables grown in war gardens. Secretaries Ragsdale has been forced to open a new department in the work of the commission to handle the inquiries. The awards are to be confined to state and county fairs but are to include, as well, exhibitions held under the auspices of war garden committees.

The commission will send to any reader of this paper its drying and canning manuals free for a two-cent stamp to pay postage. These will be a great help in canning either for home use or for the prize exhibitions. All progress in organization of war gardens exhibit should be reported to this paper at once, in order that the commission may be able to keep in touch with the work here.

CANNING AND DRYING

By W. V. Cruess, University of Calif.

Many of the methods of canning and drying fruits and vegetables which are standard in other parts of the country are not appropriate in California.

To find out just what methods are most successful for California conditions, the University of California College of Agriculture, has conducted elaborate experiments. The results have now been set forth in a series of brief articles. These articles, written by W. V. Cruess, assistant professor of zymology in the University of California, will be published by the Register for the next three weeks.

Home Methods of Food Preservation

The series of short articles that will appear in this paper on methods of canning, drying, salting, fermenting, candying, etc. of fruits and vegetables have been prepared by the University of California College of Agriculture to meet the popular demand for information on these subjects and for methods specially suited to California conditions. The university has published a number of circulars and bulletins on the same subjects, but these are limited in number and do not always reach those most interested.

The methods described are designed for home use, but the underlying principles apply equally well to commercial processes of food preservation.

Publications

If information further than that given in the following articles is desired, write the College of Agriculture, University of California, Berkeley, for any or all of the following publications:

- Circular 138—Home and Farm Canning.
- Circular 108—Grape Juice.
- Circular 146—Jellies and Marmalades from Citrus Fruits.
- Leaflet—Salting of Vegetables.
- Leaflet—Canning Fruits without Sugar.
- Leaflet—Fruit Juices.
- Leaflet—Jelly Stocks.
- Leaflet—Drying Winter Vegetables.
- Leaflet—Canning Fruits in Jars or Wax Top Cans.
- Leaflet—Canning of Fruit and Vegetables.
- Leaflet—Preservation of Fresh Eggs.
- Leaflet—Canning Vegetables in Jars and Wax Top Cans.

Also write the United States Department of Agriculture, Washington, D. C., for Farmers' Bulletins 841, The Drying of Fruits and Vegetables in the Home; Canning by the One-Day Method; and also 175, 203, 426, 293, 359, and 521.

REPORT MEASLES HAVE GOOD CROP THIS YEAR

SACRAMENTO, Cal., Aug. 18.—Fifteen thousand cases of measles have been reported in California already this year, according to Guy P. Jones, morbidity statistician of the state board of health, making 1917 a banner year for this disease.

Although the year is only a little more than half gone, Jones says that this year's measles crop is a bumper one. No reason can be given for the immense measles yield, excepting that the disease has been prevalent throughout the United States this year.

During the week ending August 11 the number of cases of measles reported to the state board increased from 48 to 100.

Typoid is being reported at the rate of 125 cases a month.

INTRODUCED STEVENS AS GOVERNOR JOHNSON

SANTA ROSA, Cal., Aug. 20.—Secretary Walter Nagle of the Santa Rosa Chamber of Commerce believes it's dead soft to introduce a governor by his right name, but it's not every man who can hitch the wrong appellation to the state's chief executive.

WOMAN SUICIDES; ILL HEALTH SAID CAUSE

LOS ANGELES, Aug. 20.—Ill health brought about the suicide of Mrs. Mary Kenyon, 33, who drank poison early today and died shortly after at the Receiving Hospital. Robert Kenyon attributed his wife's suicide to mental aberration from excessive suffering.

SIX IN MORGUE AS AUTO CRASH RESULT

COLUSA, Cal., Aug. 20.—The bodies of six persons lie in the morgue here today as the result of an auto accident at Williams Sunday when the Southern Pacific's Shasta Limited demolished a machine driven by Nicholas Spiss, aged 38, rancher. Mrs. Spiss, her three children and Margaret Reber, a girl guest, were instantly killed and Spiss was burned to death under the wreckage of the auto when the gasoline tank exploded.

HOW HE LED THE CLASS

There was some doubt as to whether Johnny, aged 8, at Munice, would be promoted this year his mind having run largely to baseball and other matters extraneous to school, but he managed to "pull through." As he came home waving his report card his mother asked, rather fearfully: "How did you stand, son?"

"Right at the head of the class," was the boastful reply. "The teacher told me that if the class was turned upside down I'd be at the head, and it certainly was upside down this morning, because we didn't study or do anything but shoot paper wads, whisper and act up."—Indianapolis News.

COULD SPARE FATHER

Little Denis, out for a walk with mother, noticed a poor, ragged little urchin.

"Yes, dear," said mother. "That poor little boy has no father to give him toys and things that you have. Wouldn't you like to do something for him? Wouldn't you like to give him your rabbit?"

Denis thought a moment, and then suggested: "I'd rather give him father."—Pittsburg Chronicle-Telegraph.

Use care in buying food for the table and make the fullest use of the food bought.

OIL MAY TAKE PLACE OF LARD IN KITCHEN

SACRAMENTO, Aug. 20.—Lard may give way to oil in the kitchens of the state institutions, to cut down the high cost of living.

W. G. McMillin, state purchasing agent, who is considering this economical move, says 66,000 pounds of leaf lard, costing 22 1/2 cents per pound, were used in the state institutions last year.

McMillin has learned that vegetable oil are being used successfully in many homes and he sees no reason why oil cannot be used in the state kitchens. The oil can be purchased for five to six cents per pound less than lard.

MEN TO BEAR BURDEN WITH WOMEN FOR SIN

LOS ANGELES, Aug. 20.—Not alone upon the shoulders of the woman is to fall the weight of sin—violating the rooming house ordinance—according to Police Judge White today. Hereafter, all male consorts of women caught in "purity" raids will be made to bear the penalty the same as their companions. Through this course the police hope to further retard vice in Los Angeles and spare women the sale scorn of society.

ASSAILANT OF WOMAN WOUNDED BY POLICE

LOS ANGELES, Aug. 20.—Running to the assistance of a woman who screamed for help at an early hour today, Patrolmen Mack and P. A. Stone fought a running gun duel with an unknown man, who escaped, although wounded by the officers' revolver fire. The man had snatched Mrs. E. Hadda's purse. At the command to halt, he opened fire on the officers.

MURDERED MAN FOUND; BELIEVED SPITE CASE

LOS ANGELES, Aug. 20.—Believed to have been murdered while he slept, the nude body of a white man was found early today in the outskirts of the city, the skull crushed and more than thirty knife wounds over the heart. After the murder the clothes had been removed and the body wrapped in an old auto covering. Indications point to the clew that the victim had recently been released and the police incline to the theory he was murdered to avenge an old grudge.

CURIOSITY SAVES OTHER MAN'S LIFE

SANTA MONICA, Aug. 20.—Curiosity may have killed a cat, but it saved the life of Cal Westbrook, who narrowly escaped drowning off Catalina Island, it was learned today. Returning in a launch from the island resort, the "captain" of the little craft noticed a man swimming astern.

"I wonder how far that fellow has been swimming," he said to companions. Investigation revealed that it was Westbrook, who had fallen overboard while curious to know whether the bottle he carried was re-fillable. He was leaning over the rail to re-fill it when he tumbled in.

WOMAN SUICIDES; ILL HEALTH SAID CAUSE

LOS ANGELES, Aug. 20.—Ill health brought about the suicide of Mrs. Mary Kenyon, 33, who drank poison early today and died shortly after at the Receiving Hospital. Robert Kenyon attributed his wife's suicide to mental aberration from excessive suffering.

READ THIS
The cost of living problem is no new thing. For centuries the price of food has been crawling gradually up, to beat the process we should have been born at least a thousand years ago. In the fourteenth century, two cents would buy a pair of chickens. A good many pounds of bread could be bought for a penny. A horse for seventy-two cents, an ox at one dollar and twenty-five cents, a sheep at forty-seven cents, and a hog at twenty-three cents. As for labor, three cents a day was deemed good pay. But here we are in the twentieth century, surrounded with war, and yet at Gerrard's store comparatively speaking, low prices prevail.

HOME WEDDING

Miss Hutoqua Hossler Becomes Bride of John Clarence Gaylord

The home of Mr. and Mrs. H. H. Hossler at 839 Parton street was the setting for a beautiful wedding on Saturday afternoon, when, at 4 o'clock, their daughter, Miss Hutoqua Hossler, became the bride of Mr. John Clarence Gaylord, son of Mr. and Mrs. J. D. Gaylord of Alhambra.

The rooms were lovely with a wealth of pink amaryllis, gypsophylla and asparagus fern. In the living room, a bower of the feathery greenery, with potted ferns and gardenias of the stately pink lilies made a charming background for the bridal party. To the strains of Lohengrin's wedding march, played by Mrs. May Gaylord of Pasadena, the young couple approached the bower preceded by little Elamay Wilson, niece of the bride, and Elmer Johnson, the groom's small nephew, who carried the rings for the double ring service in the hearts of two pink lilies. The solemn lines uniting the pair were read by the Rev. B. C. Corey of San Fernando, an old-time friend of the bride's family.

The bride, a most attractive brunette, was very lovely in her wedding gown of flesh colored crepe and Georgette. She wore a lavalier of pearls and sapphires, the groom's gift, and carried a shower bouquet of bride roses and maiden hair fern, tied with a fluffy bow of airy white tulle.

A very delectable wedding supper was served, with the tables centered by bouquets of dainty Cecil Brunner roses and maidenhair fern. The ices were in the form of pink wedding bells, and the cakes were decorated with little pink roses.

After the supper, Mr. and Mrs. Gaylord left by motor for Riverside, the bride looking especially charming in a stunning suit of old rose silk jersey. Two weeks will be spent in Bear Valley and after the first of October Mr. and Mrs. Gaylord will be at home in Pasadena.

The bride is a graduate of the Santa Ana High School and Los Angeles Normal and after teaching here for some years, taught in the Los Angeles schools. The groom is a graduate of Boston Tech. and holds a responsible position as electrical draughtsman in Los Angeles.

The guest list included Mr. and Mrs. J. D. Gaylord, Mrs. Ida Gaylord and daughter Mary of Alhambra, Mrs. May Gaylord and sons Frederick and John, Miss Cora Gaylord, Mr. and Mrs. Harry Wright of Pasadena, Mrs. Alice Gaylord of Berkeley and son Elmer of Huntington Park, Mr. and Mrs. Walter Runkel and children Evelyn and Melvin of Los Angeles, and Mr. and Mrs. Ray Wilson and daughter Ellamay, Mr. and Mrs. W. A. McFadden of Santa Ana.

W. C. T. U. Meeting
The Belle Rogers W. C. T. U. will meet at the Armory at 2:30 o'clock tomorrow afternoon.

Pretty Home Wedding Unites Young Eastern Couple

At the home of Mr. and Mrs. A. Schiff at 415 East Third street, Miss Mildred Weinstein of Tucson, Arizona, became the bride of Mr. Max Frank of Toledo, Ohio. The bride, a most attractive brunette, was daintily gowned in white, and was attended by her sister, Miss Ethel Weinstein, who wore a pink Georgette Crepe, and the groom was attended by Mr. Max Fink. A wedding supper, consisting of a most tempting array of good things to eat prepared by the capable hands of the bride's mother and Mrs. Schiff, was served to about forty guests at beautifully decorated tables.

The Rev. J. Palokoff of Los Angeles, who, by the way, has been elected rabbi of the local Jewish community, performed the ceremony in a most impressive manner.

Those present were Mr. and Mrs. Roth, Mrs. Kaplan, Mr. and Mrs. J. Brown, S. Mandel, Mr. and Mrs. T. Tucker, Mr. and Mrs. Max Soudan, Mr. and Mrs. M. Karp, Mr. and Mrs. H. Fink, Mr. and Mrs. M. Fink, Mr. and Mrs. S. Traub, Mr. and Mrs. I. Hurwitz, Mr. A. Raffee of Los Angeles, Miss Pauline Nathan of Los Angeles, Mr. and Mrs. A. Schiff, Mr. and Mrs. Weinstein and Miss Ethel Weinstein, Mr. M. Peale and Mrs. Green of Los Angeles.

The Rev. Mr. Palokoff made a few remarks regarding the duties of husband and wife and was heartily applauded.

After supper the evening was spent in music and dancing.

The couple left for a short trip, after which they will probably make their home here.

INDIAN LAND SOON TO BE OPENED TOLD ABOUT IN EXHIBIT

Standing on the railroad track at Second and Bush streets, Santa Ana, is a handsome Pullman car fitted up with everything necessary to instruct those interested in the manner and method of securing some rich Indian land, soon to be opened for sale in Oklahoma. The land belongs to the Choctaw Indian nation and will be sold by the Government.

The car contains United States geological maps and folios describing every acre of land to be disposed of, making it possible to learn as much concerning the lands as if one were there in person. They are rich in mineral and timber, being known officially by act of Congress as the unallotted timber lands. They are also fine farming and grazing tracts and the oil possibilities are very bright, the lands being in the center of a probable oil field, and, unlike other similar lands, these are not to be homesteaded and do not require residence thereon. Neither does one have to go East to secure them as this can be arranged for at the car now here.

The car is sent out by the Real Estate Exchange of McAlester, Okla., near which place the land is located, the work of instructing the public is free, and in addition to maps and folios the car contains many views taken on the lands and a number of photographs of the city of McAlester. The car will remain in Santa Ana for several days and will be open to the public daily, including Sunday, from 9 a. m. to 9 p. m. All are welcome. The services of instructing are free.

THE WEATHER

Fair tonight and Tuesday; westerly winds.

POINTS OUT JESUS IS HERO OF DEMOCRACY

(CONTINUED FROM PAGE 1)

mud-sill. That was a wonderful fact, a wonderful touch in the picture. He hath pulled down the mighty from their seats. He hath exalted them of low degree. He hath filled the hungry with good things and the rich He hath sent empty away."

"A crisis is on in the world. The world is going to get a shock, a shock similar to the shock Caesar got when Jesus came. The reason the Bible holds its place in the world today is the fact that it rings true to the sacredness of man."

"Where was Jesus born? In a stable. It is an infinitely significant fact that Jesus was born homeless and homeless. Jesus has no foes. The church has foes, but the world honors Jesus. Born in a manger! It takes the gilt and the tinsel and the artificiality of our polished aristocracy. The world will never be beautiful till the people come into its own."

"Who got the first announcement that Jesus was born? Shepherds. In the University of Oxford is a wonderful stained glass window representing the shepherd of that day. It is a wonderful shepherd, adorned with gold and silver ornaments, with beautiful silken wavy hair. Not so the shepherd of Jesus' time. The shepherd of that time was dirty and unkempt, a most forgotten, forsaken specimen of humanity."

Where did Jesus spend his young days? In a carpenter shop. Why didn't God put him in a 'middle-class' family? Because He knew better. Who were his disciples? Fishermen. Men who had the permission to fish in the waters of the lakes and streams on the banks of which the grandees of Rome built their villas. Who heard him gladly? And the common people heard him gladly! The original Greek word for 'gladly' really means 'hungrily,'—and the 'common' people heard him hungrily."

Attitude of Autocracy
"Jesus was the first man in human history to relate them, the common people, to God. 'Your Heavenly Father!' Who resisted Jesus? The Pharisees. Why? Because they felt that this great character that came into human history was sapping the foundations of their power."

"What's the picture? What is the lesson, the meaning of the picture? I delve down beneath the rottenness and debris of civilization to see whether there isn't a foundation to build a world on. We need the daylight. Put away your little lanterns. The rock-bottom principle is to recognize the sacredness of the lowest human being—democracy! The question before us tonight is this: Is Christ's estimate of the lowest human being the true estimate? Was Christ a dreamer, a fanatic, or was he the word of God? Is Caesar right, or is Christ right? Is Christ's estimate of the absolute sacredness of each human being correct? That is the question."

Tonight and each night through the week except Saturday Wilson will continue to unfold this wonderful theme of democracy. The topic for this evening is "The World Must Be Made Safe for Democracy." Community music will be provided under the leadership of Prof. Haynes. Prof. J. A. Cranston will be the chairman of the evening.

OTTO HAWLEY SECURES FINE POSITION AT TULSA

Otto Hawley, son of Mr. and Mrs. A. E. Hawley, who has been employed by the Western Power Company at San Francisco, has accepted a lucrative position with the Tulsa Public Service Corporation at Tulsa, Oklahoma.

He has been appointed assistant chief engineer of the electrical corporation, with a good advance in salary over that he was receiving at San Francisco. He took up the duties of his new position last week.

Reliable Gas Ranges, underpriced. Chandler's, 510-516 North Main St. Dr. Hancock wants hard cases.

Personals

Friends of Mrs. D. D. Purrington of Los Angeles, who was well known here as Miss Helen Clayton, will be interested to know that her husband has been called to the officers' training camp at the Presidio in San Francisco. Mrs. Mae Walton and Eva Carrothers returned home yesterday from Newport Beach, where they have spent the past five days, having rented the Barker Apartments while there. They had as their guests Mrs. J. W. Walton and daughters, Mrs. Devine and H. L. Lambert and children, John Walton, Mrs. J. M. Carrothers, Sydney Allender and Orrin Daniel.

Mrs. Carl Wolse of Los Angeles was an over-Sunday visitor at the home of Miss Cora Stranding on Lacy street. Miss Kate Richards has gone to Corona for a few days' visit with her niece, Mrs. G. D. MacMullen.

Mrs. Harry L. Hansen and small son have just returned from a month's outing at the beach.

Mrs. Stephen Ross, Mrs. George Balderston and Mrs. H. J. Stevens were among the Santa Anans visiting in Los Angeles today.

Mrs. A. J. Lawton spent the day in Los Angeles on business in connection with the Council of Defense.

Mrs. W. Arnoz arrived Sunday from Philadelphia for a three-months' visit with her cousin, Mrs. Ann Pass of 820 West Third street.

Mrs. A. M. Law left today for Denver, Colo., to attend the wedding of her son, William L. Law, of Augusta, Colo. She expects to be absent two or three weeks.

Mr. and Mrs. R. O. DeBois of 1225 North Ross street, left Sunday, for about ten days at Laguna Beach.

Mr. and Mrs. George W. Dryer of Los Angeles were guests over Sunday at the home of Dr. and Mrs. John L. Dryer.

Mrs. John Bruns and son, Paul, left this morning for an automobile trip to the Yosemite, where they will spend several days.

Mr. and Mrs. Wm. Marshall and Mr. and Mrs. Hugh Marshall of Monrovia and Mr. and Mrs. Ralph Vanderhoof of Pasadena were luncheon guests at the home of Mr. and Mrs. Chas. F. Kneen Saturday. The visitors were en route home from their vacation.

They are cousins of the Kneens. Mrs. F. O. Rhodes, her mother, Mrs. A. E. Coates, her sister, Miss Jessie Coates, and Master Edmund Rhodes will spend the next two weeks in Los Angeles.

Mr. and Mrs. Joe Babbitt departed Saturday morning for Seattle, where they will pass a vacation of two weeks.

Miss Opal Davis, deputy sheriff, and Mrs. Elizabeth Donovan, deputy county auditor, have returned from vacation trips to San Diego.

A. L. Hitchcock, deputy county clerk, is on the job again today after a week's vacation spent in the Arroyo Seco.

Among the Santa Anans who attended the Shriners barbecue at the Maier ranch in the San Fernando valley were Geo. Robinson, Leslie Mitchell, Dr. L. L. Whitson, Chief of Police Jernigan, C. D. Brown, Jos. P. Smith, Otto Haan and Roy Hall.

Armin F. Herold, former agent for the Indian motorcycle in this city, and now a resident of Redlands, received a first lieutenant's commission at the training camp at the Presidio.

He has been assigned to the camp at American Lake, Washington, and will report there on the 29th inst. Herold was in the city Saturday night and yesterday, having come down to visit his folks at Balboa, where they are spending their vacation.

Mrs. Mary Mathews has returned from a three months' vacation trip to Colorado and Nebraska. She is accompanied by her sister, Mrs. C. A. Hanson, of Archer, Nebraska, who will enjoy a visit here.

Mrs. Olive Lopez and her daughter, Miss Isabel, left Saturday for Santa Paula, where they will spend a few days with H. McPhee and family and at Sulphur Mountain Springs, near Santa Paula. Mrs. Lopez will enjoy a two weeks' vacation.

Mrs. A. H. Taylor and two children of Los Angeles are visiting friends and relatives in Santa Ana. They will be here until Thursday.

Miss Arlie Cravath, assistant secretary of the Chamber of Commerce, and Miss Hattie Powers, of the Recorder's office, are spending a week's vacation at Forest Home, having gone to the pleasure resort yesterday.

Mr. and Mrs. C. W. Brakeman motored over from Pomona last evening and spent today calling on Santa Ana friends.

Miss Mary Cunningham, professor of English at Occidental College, passed through Santa Ana this morning, going from Laguna to Balboa, where she will spend a short vacation.

Mr. and Mrs. Willard L. Cain and little Miss Virginia Cain were Laguna visitors yesterday.

JUDGE MARYATT'S MACHINE STRIKES MAN ON ROAD

Slow, careful driving by Judge O. H. Maryatt of this city, yesterday saved what might have been a fatal accident to D. Ruiz, a Mexican of Westminster. As it was the Mexican suffering eight bruises about the chest. He was snuck down by the Maryatt car, and the machine was stopped within three feet, with the man lying lengthwise under the car and his head and shoulders in front of the axle.

Judge Maryatt and party were returning from a day's visit at Long Beach. Just east of Westminster, a car belonging to J. Hillan of Arlington and driven by a woman, cut in between Maryatt and a machine coming in the opposite direction. The Hillan car bumped the side of the Maryatt car and knocked it to one side of the road. The Mexican was walking along the right side and well off the pavement.

Hillan admitted being at fault and offered to settle with Ruiz, but the latter did not seem to understand and walked away.

Maryatt and wife took their old friends, Mr. and Mrs. A. N. Brown of Colton, over to Long Beach for the day.

Ruiz called at the Sheriff's office today and told of the accident, and he was advised to see Judge Maryatt, Jackson not knowing the circumstances of the accident at the time.

John Wesley Hancock, Optometrist, near P. O., holds record of highest grades ever made in California.

MACHINE IS STRUCK BY PACIFIC ELECTRIC CAR

ORANGE, Aug. 20.—A Ford driven by Mrs. George Bandick was hit by a P. E. car at Almond street crossing. No one was hurt. A wheel of the Ford and some steps off the P. E. car measured the damages.

OUT OF 63 PASSED TODAY 21 DO NOT ASK EXEMPTION

PHYSICIANS FIND ONLY 12 FROM 75 UNFIT FOR ARMY WORK

Fewer Disqualifications and Fewer Requests For Dis- charge Mark Half-day

Physically qualified and not claiming exemption, 21.
Physically qualified and claim-
ing exemption, 42.
Physically disqualified, 12.
Already enlisted, 10.
Not appearing, 14.
Transferred for examination
elsewhere, 3.
Claiming exemption as aliens, 7.

The result of this morning's work by the exemption board of Orange County District No. 1 is briefly out-
lined above.

The proportion of men who were disqualified today ran less than at any period during the examination of those who were in the first call for 420 men two weeks ago.

The proportion of men passing who do not claim exemption is less than at any period in the former examina-
tions.

Where the proportion of claimants for exemption ran about four to one who did not claim exemption, the proportion now is but two to one.

The examinations this morning were conducted in the Elks' club room. Drs. Wehrly, Clark, Gobar and Traile with Dr. Royer, a member of the exemption board, passed upon the men physically.

As the men came from examination by the physicians, each was asked by S. W. Nau and V. V. Tubbs, members of the board, whether or not exemption was claimed.

The results of this morning's work is given in detail as follows:

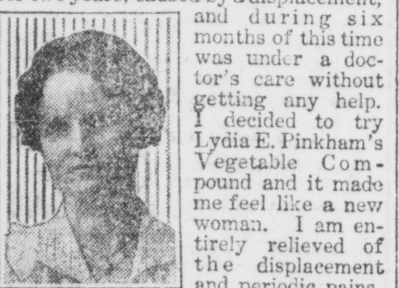

NOT CLAIMING EXEMPTION

- 424—Robert Milton Crawford, 1013 East Chestnut.
- 426—Irvin Harold Stansbury, Balboa.
- 437—Therese Ollie Bell, Orange.
- 438—Peter G. Vuchevich, 212 1/2 W. Fourth.
- 443—Edwin Martin Rosenbaum, San Juan Capistrano.
- 448—Harold Rogers Wright, Harper.
- 451—Ernest Michael, Peralta.
- 455—Hugh Conger Thomson, Orange.
- 456—Arthur Hausauer, 612 E. Sixth.
- 459—Elman M. Planchon, Santa Ana.

A GRADUATE NURSE

Why She Recommends Lydia E. Pinkham's Vegetable Compound.

Chicago, Ill.—"I was in poor health for two years, caused by a displacement, and during six months of this time was under a doctor's care without getting any help. I decided to try Lydia E. Pinkham's Vegetable Compound and it made me feel like a new woman. I am entirely relieved of the displacement and periodic pains, and am now the mother of a beautiful healthy baby. I am a graduate nurse and will be glad to recommend Lydia E. Pinkham's Vegetable Compound to other women."

Mrs. R. W. Sloan, 6025 So. Park Avenue, Chicago, Ill. There are many women who suffer as Mrs. Sloan did and who are being benefited by this great medicine every day. It has helped thousands of women who have been troubled with displacements, inflammation, ulceration, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration.

If you need special advice write Lydia E. Pinkham Medicine Co. (confidential).

80 APPLY FOR ONE MINE SCHOLARSHIP

SACRAMENTO, Aug. 20.—Edward Hyatt, state superintendent of public instruction, has an unenviable duty to perform in choosing one candidate from a list of eighty applicants for a scholarship in the Colorado School of Mines at Golden, Colorado. The school has allowed one scholarship to California for the next term and named Hyatt to pick the lucky man. The Colorado school is famous for the mining engineers it turns out.

Claims Of Twelve Asking For Exemption Are Denied

Out of 100 names considered by the exemption board of District No. 1 Saturday, the claims of twenty-two men for exemption were granted, while the claims of twelve were denied and the men are ordered certified into the service. Six cases were continued. The remainder of the 100 had been previously passed upon, and the men were either discharged by reason of physical disability, were reported as not appearing or were certified into the service as not claiming exemptions.

Of the 420 names on the first order list, 250 have now been passed upon. Today the exemption board was busy with the physical examinations of the 480 men ordered in for examination this week, and the passing upon of the exemption claims of those whose order numbers lie between 250 and 420 may be taken up at a night session of the board.

The board desires to complete its work upon the list as quickly as possible. The Register's report on Saturday showed the disposition of the claimants for exemptions between the order numbers from No. 1 to No. 150. Disposition between No. 150 and No. 250 is indicated in the following:

DISCHARGES GRANTED

- Faustino Garcia, Los Angeles, wife and two children.
- Frank V. Reeves, Orange, wife and child.
- Earl Christ, 1064 West First, wife and child.
- Thomas B. White, Orange, wife and child.
- Hubert L. Drake, Irvine, wife and expected child.
- Harry H. Brace, 1412 West Second, parents.
- Eugene Reif, 1020 West Fourth, wife and expected child.
- Arthur B. Collins, Orange, wife and two children.
- Willis R. Harvey, 1509 West Second, wife and two children.
- Herman O. Krueger, Orange, R. D. 1, wife and expected child.
- William F. Graves, Tustin, parents and two small brothers.
- Walter E. Lovell, Orange, wife and child.
- Robert A. Evans, 714 South Van Ness, invalid wife.
- Joseph C. Valdez, 417 North Birch, wife and child.
- James H. Luther, Peralta, wife and child.
- James A. Winn, 1033 West Fifth, wife and expected child.
- Hurley Sears, Santa Ana, R. D. 7, wife and four children.
- Earl W. Clinton, Orange, R. D. 1, wife and two children.
- Edward W. Lehmberg, Villa Park, wife and one child.
- Clyde B. Worsham, 107 S. Sycamore, wife and one child.
- Joseph L. Brook, San Juan Capistrano, wife and one child.
- Frank H. Collins, Orange, invalid wife.

Out Of 159 Claims For Exemption 110 Granted

FULLERTON, Aug. 20.—Orange County District No. 2 exemption board Saturday practically cleaned up all the exemption claims. The board Friday acted on 106 claims. Sixty-one were granted exemptions and the remaining forty-five, nearly half, were denied.

Saturday the board acted on fifty-four claims, granting forty-nine and denying four. All told 159 claims have been acted upon. One hundred and ten were granted exemption and 49 denied. A majority of the claims denied were in instances where a wife was the only dependent.

Today notices will be mailed to the persons affected, informing them of the action of the board. Meantime the board has put aside a pile of exemption claims for investigation. These are the "doubtful" cases on which more information will be sought. The board has the authority to take oral testimony and some of those whose claims have been held up may be called in. The investigation may shift to the tax records at the court house to determine what holdings some of those in this class have. The following are the claims passed on by the board on Friday and Saturday.

Denied Exemption

- William E. Macey, Anaheim, wife.
- Walter J. Roberts, Santa Ana, son of widow.
- Alexis Lloyd Pondleton, Fullerton, wife.
- Franklyn E. Skinner, Los Angeles, son of widow.
- Nereia Mendenhall Moore, La Habra, accepted as non-combatant.
- Milton Emery Steiner, Yorba Linda, accepted as non-combatant.
- Ralph Andrew Pantuso, Fullerton, brother of dependent child, wife.
- Charles M. Schully, Fullerton, fatherless and motherless child.
- William Sill Frink, Brea, son of widow.
- Samuel C. Johnson, Fullerton, wife and father.
- Joe Bardin Parks, La Habra, son of widow.
- Earl G. Wallder, Anaheim, child.
- Granted Exemption
- Arthur O. Marsh, Fullerton, wife.
- LeRoy J. Robinson, Garden Grove, wife and three children.
- Robert Ruiz, wife and three children.
- Floyd R. Reither, Fullerton, wife and child.
- Claude R. Prince, Anaheim, wife and two children.
- Herbert C. Sampson, Fullerton, wife and child.
- James W. Parsons, Brea, wife and child.
- George Thurston Hatfield, Anaheim, wife and two children.
- Leland S. Hamer, La Habra, wife and child.
- John D. Parks, Anaheim, wife and two children.

BAY DISTRICT BEGINS CHECK ON EXEMPTIONS

SAN FRANCISCO, Aug. 20.—The district or appellate exemption board for San Francisco and Alameda counties began its hearings of claims for exemptions at the city hall here today. This board will pass on practically every claim for exemption granted by the local boards, under the plan of the government to appeal from all decisions granting exemptions.

Not only will the district board pass on appeals but its work includes the decision of exemption claims based on occupational grounds. There will be many of these claims from this district, it is understood, particularly from employees of shipyards, munitions works and other industries which the government considers indispensable for the successful prosecution of the war. To secure an occupational exemption a man must first prove the industry in which he works is indispensable and then that he is necessary to the industry. Should he leave that industry after exemption he will become subject to call once more.

JAPAN REAPS PROFIT FROM SHIP SELLING

TOKIO, July 7 (by mail).—Japan has made \$50,000,000 from ships since the outbreak of the war. Thirty-two merchantmen, aggregating 200,000 tons, have been sold to England, France, Italy, America, Spain and Norway for \$42,500,000. The money obtained from the sale of ninety trawlers is estimated at \$7,500,000.

Glad to Serve You

Managed by conservative, reputable, efficient managers, this bank is especially able to serve you well.

Your bank account here is accorded every security, every consideration and every accommodation.

We stand ready to serve you in every financial need.

Any official or teller would deem it a pleasure to explain our various facilities.

THE FARMERS & MERCHANTS NATIONAL BANK
—AND THE—
HOME SAVINGS BANK OF SANTA ANA.

TREE PRUNERS

It is about time to start pruning your trees, and keep in mind that we carry all kinds of pruners and saws for the work.

One-hand Pruners, from \$1.00 to \$2.25 a pair.
Two-hand Pruners, from \$1.50 to \$2.50 a pair.
6 foot, 8 foot, 10 foot and 12 foot Pruners.
Pruning Saws of all kinds, from 75c to \$1.50.

COME IN AND LET US SHOW YOU.

Shortage of Ice

We wish to notify retail purchasers of ice that during the month of August there will be a shortage of ice. The wagons will supply customers as far as possible each day, but no customer may have ice two days in succession.

Our plant is running capacity every day and we have attempted to purchase from other Southern California plants, without avail.

We ask the co-operation of the people during this time, as wholesalers are obliged to have ice to take care of their perishable goods.

WON'T LET THEM TAVIS RELEASED HAVE MEETING ON \$1000 BAIL IN SANTA ANA FURNISHED SCHOOLHOUSE BY BISHOP

Board of Education Refuses Permission to People's Council Gathering Attorney Declares Client Innocent of Embezzlement and Will Be Cleared

Permission given the People's Council to hold a meeting at Intermediate school tomorrow night was withdrawn this morning.

The Santa Ana board of education is not at all in sympathy with the sentiments or activities of the People's Council. In fact, the members of the school board who have expressed themselves are distinctly certain in their own minds that the actions and expressions of the organization are unpatriotic and give aid to the enemy.

The People's Council is the name adopted by those who are backing a movement to hold a meeting at Minneapolis to protest against various things that the government has decided are absolutely necessary to the carrying on of the war and the protection of the American flag. Recently a council was formed here, following a meeting addressed by ex-Senator Works, Rev. Watry and others.

Today Mrs. Barbara Brooks announced that a meeting of this organization would be held tomorrow night at the Intermediate school. Inquiry resulted in finding that City Superintendent Cranston, thinking the organization was a gathering in connection with the Socialist party, had given permission for the use of the schoolhouse. There is a state law that makes it necessary for schoolhouses to be given over to meetings of political parties.

F. L. Andrews, secretary of the school board, held a conference with Superintendent Cranston, and upon the declaration of the secretary that the People's Council is not a political party and does not come under the state law requiring permits for the use of the school buildings, permission was revoked.

"I not only am not in sympathy with the People's Council," said Andrews this afternoon, "but I am convinced that the things they are doing are hampering our government. Certainly they are not entitled to the use of our public schoolhouses to carry forward a movement that is giving aid to our nation's enemy. I feel about this movement the same way as the Register, as expressed editorially, that any hindrance to the conduct of the war now is helping the opponent."

"I have talked to the other members of the board of education, excepting Mr. McBride, who is out of the city, and they all feel as I do. They are against allowing the use of schoolhouses for any such purposes."

RYAN RECOVERS WOMAN'S PURSE AND MONEY

Ralph Kelly Admits Finding and Secreting Handbag at Allerton Hotel

Ralph Kelly is in the county jail today with a charge of larceny booked against him as the result of clever work last night by John Ryan of the police force.

Mrs. Geo. Miller, of Los Angeles, stopped temporarily at the Allerton hotel yesterday and entering the lavatory placed her hand bag containing her purse on a shelf and left without it. Discovering her loss a little later she returned to the wash room and found it gone. Investigation failed to disclose it. The purse contained about \$70 in travellers checks and \$10 in silver.

Late last night Kelly told someone that he had found a purse, and this information was conveyed to Ryan, who found Kelly. Kelly at first denied that he knew anything about the handbag. Finally he came through and admitted that he knew where it was. It developed that he had entered the washroom and picked up the handbag. He hid it in the parlors at the hotel, after extracting the \$10. He took the officer to the missing article, but denied that there was money in the purse when he found it.

Kelly is a ranch hand and has been making the Allerton hotel his stopping place when in the city.

FENCE POSTS MAKE FIRE WOOD, MEXES ACCUSED OF THEFT

Sterling Price of Bolsa is getting tired of furnishing Mexicans with redwood fence posts for firewood. He has not been doing it of his own free will, but nevertheless his fence posts have been making blazes. Last year in one night twenty-one posts disappeared.

Yesterday some posts that had been used for fencing beet fields were taken, and were found in a yard. In that

yard also were found some pieces of a screen porch and barn belonging to R. A. Ross. These were also on the woodpile.

R. Espinosa, Victor Hartago, E. Reyes, Miguel Espinosa and Jose Lopez were arrested, charged with stealing the property. August 24 was set for their trial.

For Non-Support Deputy Sheriff Murlilo of Fullerton arrested Ernest Pico on a charge of non-support of his wife and child.

Brings a Mystery Yesterday morning while driving an automobile loaded with milk cans, Frank Crane of Westminster hit a buggy in which Bill Flores and Anacostia Remigio, Mexicans, were riding. The Mexicans were intoxicated. The spill did not add to their helplessness, for neither was hurt. Sheriff Jackson was notified, and Crane held the Mexicans, for in the big Crane found two sets of single harness. When the Mexicans sobered in jail, they were deeply mystified over the harness. They had absolutely no idea where it came from. They did not know who put it in the rig. The officers are satisfied the harness was stolen, but they have not located the owner.

Charges Theft Constable J. M. Clark of Garden Grove arrested Stanley Setton on a charge of stealing a revolver, some tools and other articles.

Slashing Affair Sheriff Jackson and Under Sheriff Inman arrested Francisco Soto at Delhi. Soto was covered with blood, not his. It came from Ubaldo Juarez, punctured in the left arm. Soto was hitting both edges of the road as he walked, when the officers got him.

AT THE COURTHOUSE BIRCH BRINGS SUIT AGAINST THREE MEN TO COLLECT NOTES

A. Otis Birch, trustee, has brought suit against J. E. Nelson, J. S. House and J. Edmund Snow to collect upon two notes, one for \$600 and the other for \$200. Woodruff & Shoemaker are attorneys for the plaintiff.

Judgment Given George J. Birkel Company of Los Angeles today got judgment of \$490 against J. W. George. The money was alleged to be due on a piano contract. Real estate has been attached. Judgment was by default, the defendant not appearing.

Never allow chicks to run in the yard where the fowls are, and never keep them in the same house with fowls, if you want them to be free from disease and grow fast.

U. S. MAY HAVE COAL DICTATOR IN 24 HOURS

WASHINGTON, Aug. 20.—President Wilson has selected the man who is to be America's fuel dictator.

He is waiting for him to make formal acceptance of the post before officially announcing the name.

The proposed dictator is the head of one of the foremost institutions in the country and an expert on the fuel question.

WASHINGTON, Aug. 20.—A coal dictator will fix prices for the United States by President Wilson within 24 hours, officials say. Coal operators and officers of the United Mine Workers who asked the president to name a committee of three to execute the Pomerene coal amendment to food control law were told that a dictator with sole responsibility and not a committee was the favored plan.

The president's choice for this tremendous power is not known. Robert S. Lovett, priority head of the war industries board and chairman of the United Pacific railroad directorate, is favored by the coal operators. Commissioner W. B. Colver, of the federal trade commission, is wanted by the coal miners.

Under the food law, the coal controller will fix prices from the mine to the consumer's bin and will regulate all intermediary steps of distribution.

Relief of the northwest and New England, threatened with coal famine, will be among the first steps undertaken.

Relieve New England A sharp reduction in prices to the American home is expected. The navy department today is paying \$2.33 at the mine for bituminous coal. The rate of \$3 fixed by the coal operators voluntarily at the conference with Secretary of the Interior Lane last June, is now admitted by operators to be high.

thousand applications for loans have been received since the Berkeley farm loan bank was opened by the government under the rural credits act but only 90 loans have been made according to statistics made public by the retiring officers of the land bank.

The applications received asked for a total of \$10,000,000 in loans. The total amount loaned in the 90 applications which were granted was \$391,000. These applications covered four states which form the Western Federal Land Bank District.

There are 200 Federal Farm Loan Bank Districts.

There are 200 Federal Loan Associations in the state.

RESUME SHIPMENT OF ANAHEIM VALENCIAS

ANAHEIM, Aug. 20.—The Anaheim Citrus Fruit Association, packers of four famous Anaheim Supreme and Mother Colony brands of Valencia, has resumed shipment of Valencia, and will probably continue steadily until the latter part of November. The season has been made late this year on account of the large crop to be moved. Very satisfactory prices have been obtained and will, according to present prospects, remain good for the balance of the crop.

The association has just issued checks for the first Valencia pool, totaling over \$50,000, making one of the best pools the association has ever had for this season of the year.

BOARD MEMBERS BRIBED; PLEAD GUILTY; FINED

NEW YORK, Aug. 20.—Pleading guilty to charges of conspiracy to violate the draft law, Dr. Samuel J. Bernfeld and Louis I. Cherey, ousted members of exemption board No. 99, were sentenced to two years in Atlantic prison and fined \$10,000 each today.

Both fines were later remitted at the request of Assistant U. S. Attorney Knox, who said the United States government did not care to "accept tainted money."

Federal Judge Mantel characterized the offense a "most heinous one." The plea of guilty was unexpected. Bernfeld and Cherey declared they were making restitution to the drafted men from whom they accepted money for exemptions.

Kalman I. Gruher, indicted with Bernfeld and Cherey, has yet to plead. It is believed he will fight the case. The sentence and fines were the maximum.

WOMEN AVERAGE \$2.50 PER DAY AT CANNERY LAST WEEK

One Hundred More Needed at Once to Take Care of Chilis

With 135 women and forty men working, the cannery today entered upon its second week of canning operations on chilis with at least 100 women short of the number it could use.

Chilis are coming in fast and the additional help must be secured at once. A large number of women reported for work this morning following the announcement Saturday that more help was needed. At that time notices had been mailed to those who had made application for work and it was thought a good portion of them would respond. They failed, however. Every woman who started with the opening date on chilis last week reported for duty this morning, indicating that they are well satisfied with the working conditions and wages. Although inexperienced in peeling chilis a large number of women last week averaged \$2.60 for a day of nine hours, while many others made \$2.50.

"We must have more help," said Superintendent Ed Kitterman this morning. "If we can't get the help needed we will have to send some of our products to the Los Angeles cannery, and we don't want to do that. This is a Santa Ana institution and I want a steady run of at least four months, and I am sure that no one who is willing to work can object to the wages we are paying. We are paying between 30 and 40 per cent more for peeling than we ever paid in the Los Angeles plant, and the experience of last week has demonstrated that women who are quick and active can make an average of \$2.50 per day. Some of the more efficient will be averaging \$3 or more a day before this week is over, in my opinion."

A TEXAS COMPLIMENT (From the Houston Post) You will have to hand it to Mr. Romanoff for the quiet he has maintained since he was scoured out of his job. A fourth class postmaster in Texas would have roared more for being fired from his little three for a quarter office.
